Letter of Reference

From January to May 2017, Mr. Johannes Ellinger worked as an external Scrum Master for the mozaik operations GmbH in Munich.

His responsibilities included putting together an agile project team, implementing and managing Scrum but also human resources development, customer visits, development activities, market research and concept development.

Mr. Ellinger has very strong factual, professional and technical qualities. In an agile environment he masters all parts and he is familiar with many agile tools which he is able to use very well in practice.

He was always on time, calm, objective, concentrated and creative. The talent for illustrating complex facts in a way that colleagues with less technical knowledge were able to understand them – amongst others – easily promoted a quick and pleasant integration into the team (about 12 people).

It is especially exemplary how Mr. Ellinger proactively thinks outside the "box" and by focusing on the project's success elaborates ideas on his own and makes and pushes proposals.

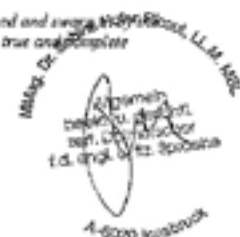

It would be a real pleasure for me to work with Mr. Ellinger again in the future. I would like to thank Mr. Ellinger for the excellent collaboration and I wish him all the best.
